

EverClean Operator Technician

Greensea IQ is a world leader in advanced robotic solutions for the ocean. We are a dual-use technology company that has pioneered the use of autonomous systems in critical defense applications and is now transitioning that mature technology to the commercial maritime markets.

Greensea has a defense product portfolio focused in Mine Countermeasures, Explosive Ordnance Disposal, and Special Operations. Since 2017, we have pioneered the use of autonomous robots and artificial intelligence to create scale and safety in ocean warfare while protecting the warfighter.

Greensea's emerging EverClean product transitions defense technology to the commercial sector to create high impact and achieve significant growth within a large market. EverClean uses autonomous underwater robots to keep the hulls of ships clean, allowing ships to perform optimally. This Robot-As-A-Service business provides significant fuel savings, carbon emissions reductions, and increased vessel performance through a simple subscription program.

Job Description

The EverClean Operator Technician is a key member of the EverClean Field Service Team at Greensea IQ, responsible for operating, maintaining, and managing remote robotic hull cleaning systems across the global EverClean fleet.

This role combines remote piloting and technical maintenance responsibilities, conducting precision cleaning and inspection missions from shore-based control centers while performing hands-on maintenance, calibration, and troubleshooting of robotic systems to ensure peak performance in the field.

This position is well suited for candidates who are detail-oriented, disciplined, and comfortable working with both technology and mechanical systems in dynamic environments.

Responsibilities

- Pilot remote-controlled robotic systems to complete underwater hull cleaning and inspection missions.
- Perform technical maintenance, inspection, and troubleshooting of robotic systems and associated support equipment.
- Conduct pre- and post-mission vehicle checks, including basic mechanical and electrical diagnostics.

- Follow established procedures and safety protocols to ensure consistent, high-quality operations.
- Maintain situational awareness of vehicle status, environmental conditions, and mission progress.
- Record mission data and maintenance actions accurately for reporting and analysis.
- Collaborate with field teams to ensure the delivery of safe, efficient, and reliable services.
- Support mission planning, monitoring, and post-mission reviews to enhance operational reliability and efficiency.
- All other responsibilities as reasonably assigned.

Requirements

- Reliable communication skills, both verbal and written.
- Technically proficient: experienced with computers, software, and mechanical or electrical systems.
- Ability to diagnose and resolve basic technical issues in the field.
- Ability to work independently and maintain focus during extended operations.
- Willingness to travel up to 20% and work flexible hours.
- Background in field operations, logistics, inspection, or remote equipment operations is ideal.
- Hands-on experience with robotics, electro-mechanical systems, or related technical maintenance, preferred.
- Experience with drones, simulators, or other control-based systems is not required but a bonus.
- Technical curiosity and interest in robotics or marine operations.
- The ability to work weekends, and the occasional overnight or holiday.

To apply, please send your resume, salary requirements, and cover letter to careers@greenseaIQ.com as PDF documents. The candidate must be eligible to work in the United States. Travel up to 20% This position is based in Rockledge, FL and cannot be performed remotely. Wage: \$28-30/hr.

Greensea IQ (www.greenseaIQ.com) is an equal opportunity employer. We offer a casual and fun work environment and provide our employees training and continuing education opportunities. Greensea IQ offers competitive salaries and a complete benefits package, including full health insurance, 401(k), and paid vacation, holiday, and sick leave.
