

EverClean Field Technician

Greensea IQ is a world leader in advanced robotic solutions for the ocean. We are a dual-use technology company that has pioneered the use of autonomous systems in critical defense applications and is now transitioning that mature technology to the commercial maritime markets. Greensea has a defense product portfolio called Bayonet that is focused in Mine Countermeasures, Explosive Ordnance Disposal, and Special Operations. Since 2017, we have pioneered the use of autonomous robots and artificial intelligence to create scale and safety in ocean warfare while protecting the warfighter.

Greensea's emerging EverClean product transitions defense technology to the commercial sector to create high impact and achieve significant growth within a large market. EverClean uses autonomous underwater robots to keep the hulls of ships clean, allowing ships to perform optimally. This Robot-as-a-Service business provides significant fuel savings, carbon emissions reductions, and increased vessel performance through a simple subscription program

Job Description

The EverClean Field Technician is responsible for tendering and piloting Greensea IQ's Hull Service Robot (HSR) in a safe and efficient manner. The candidate should be competent in the maintenance and repair of all electronic, electrical, mechanical, and sub-systems associated with the vehicle. This includes component repair, replacement, and troubleshooting. The majority of operations will take place at major ports and harbors around the country and will require a significant amount of traveling. This includes driving a control van that is specially outfitted for the vehicles. The EverClean Field Technician will report directly to the EverClean Field Supervisor.

Responsibilities

- Piloting and tendering remote vehicles.
- Participate in familiarization and debriefing sessions prior to mobilization/demobilization.
- Carry out Preventive Maintenance on vehicles per Greensea IQ's planned maintenance plan.
- Evaluate system maintenance schedules and advise the Supervisor of any technical matters, needs, and upgrades.

- Establish and maintain parts and supplies associated with all electrical and electronic devices.
- Maintains parts and supplies inventory associated with all systems.
- Assist in the post-processing of all data collected during operation to build out field reports.
- Ensure that internal/external Health, Safety, Environment, and Quality requirements are adhered to at all times.
- Assist the engineering department with testing and data collection at our test facility in Cape Canaveral, FL.
- All other responsibilities as reasonably assigned.

Requirements

- Possess High School Diploma or GED.
- Qualified and Experienced in ROV Operations as a Technician (1+ Years).
- Qualified in Electrical and Mechanical or relevant discipline.
- Proven track record in ROV operations.
- Working knowledge of the Maritime Industry.
- Strong computer skills including experience in Linux and Windows.
- Will require assisting in driving the operations van for 6+ hours to different job locations
- Willing to travel for 5+ days at a time.
- The ability to work weekends, and their occasional overnights and holidays.
- Must have a valid driver's license and submit a driving record for the past three years.
- Must be able to obtain a valid Passport and Transportation Worker Identification Credential (TWIC Card).
- Must be able to obtain security clearance.
- Excellent organizational skills, capable of prioritizing jobs depending on job requirements.
- The ability to work successfully as a team member. Must be easygoing, hardworking, have great communication skills, willing and able to work with clients, and field crews.
- Ability to work in all weather conditions; rain, sleet, storm, snow, heat, etc.

To apply, please send your resume, salary requirements, and cover letter to careers@greenseaiq.com as PDF documents. The candidate must be eligible to work in the United States. The ideal candidate is located near Hialeah, FL. This role will require significant travel, both in and out of state. Wage: \$24-25/hr.
